

10 June 2022

Dear Doctor

**Re: SECURITY MEASURES AT YOUR PRACTICE**

“SA dismal crime stats reveal a ‘violent, brutal’ start to 2022” – News24 06 June 2022

“Four SA cities including Cape Town rank in world’s most dangerous list” – Capetownetc.com 30 May 2022

The headlines that South Africans have become all too familiar with – crime is affecting the very fabric of our society. Crime range from vandalism, theft, hijacking, hold ups and kidnapping. Both public and private practices, especially those not in a hospital or secure complex setting are most vulnerable and worryingly are being targeted ever more increasingly as the criminal element becomes more desperate and daring.

Both you and your patients are not safe from this scourge affecting the country.

**Kindly fill out this urgent and important survey**

1. Has the security at the surgery been breached in the last 5 years?

2. What are the major security concerns? \_\_\_\_\_  
\_\_\_\_\_

3. What measures are in place to protect yourself and staff and patients?

a. Security gates,   b. Alarm

c. CCTV   d. Guard

e. Other: \_\_\_\_\_

4. Do you require our assistance to provide a solution via possible corporate partners to enhance the security at the practice

5. If yes, please answer the following questions:  
a. Do you have CCTV monitoring inside and outside your practice?

b. Do you have armed response to support your alarm at your practice?

Kind regards

Network Management
